USE FOR

- *Insect Control*
- *Odor Control*
- *Garbage Odors*
- *Sewage Odors*
- *Smoke Odors*
- *Playgrounds*
- *Parks*

DIRECTIONS FOR USE

Beat It is a dry-like solid that is dispensed by pouring or shaking. Use it sparingly-A very little goes a long way!

General Use-For best results, sprinkle lightly into empty refuse and garbage receptacles. Add small amounts periodically or as refuse and waste are deposited. This will prevent obnoxious odors and insects from becoming a problem.

Cigarette Urns-Use full strength or mix with sand or any other base material. This will keep not only the urn clean smelling, but it will also act as a room deodorant as well.
