

**SPECIALTY**

# LIQUEFY

*Liquid Ice Melter*

**L**IQUEFY is a liquid snow and ice melt that is effective in preventing freezing on walks, driveways, intersections, culverts, bridges, steps, ramps, loading docks, and anyplace that snow and ice is a problem. In addition, Liquefy can be used to help melt snow and ice on equipment. Spray or pour on sand to help prevent freezing and caking. Liquefy improves thawing qualities and allows for better traction. pH 9-10

## USE ON

- Side Walks
- Stairs
- Driveways
- Parking Lots
- Roofs
- Roads
- Ramps

## USE IN

- Schools
- Hospitals
- Churches
- Country Clubs
- Athletic Clubs
- Restaurants
- Hotels/Motels

## USE FOR

- Snow
- Ice

## ***DIRECTIONS FOR USE***

Liberally spray, sprinkle, or pour on surface to be treated. More than one application may be necessary in extreme conditions. On glazed ice, it may be necessary to score ice in several places before applying. This prevents run-off and allows better penetration. In return, it breaks the bond and allows an easier removal.
