

ONE & DONE

NO RINSE FLOOR CLEANER

ONE & DONE is a game changer for cleaning kitchen floors. Traditionally heavy Alkaline products have been used to clean kitchen floors leaving behind fats, oils and grease trapped in the pores of the tile and grout that makes floors slippery while leave a unpleasant stale odor.

ONE & DONE is a pH Neutral formula utilizing Grease Cutting Surfactants combined with special Non-pathogenic Enzyme producing bacteria. After you finish cleaning the surface **ONE & DONE** will continue to breakdown and digest the fats, oils and grease left behind in the pores even after the floor is dry.

Not all products are created equal. **ONE & DONE** sets itself apart from the pack with the addition of Enzyme Fortification which means **ONE & DONE** hits the floor running starting to work faster and clean deeper than other bacteria based products on the market.

USE ON

- Kitchen Floors

USE IN

- Caterers
- Cafeterias
- Restaurants
- Institutions

USE FOR

- Fats
- Oils
- Greases

DIRECTIONS FOR USE

1. Wipe up spills and sweep up loose debris from the floor, then dilute 2 oz. of ONE & DONE Floor Cleaner per gallon of cold water.
2. Using a clean mop, apply solution liberally to the floor.
3. Wait 5-10 minutes to allow sufficient contact time, then scrub with a deck brush.
4. Squeegee excess to floor drain and allow to air dry. **DO NOT RINSE.**

Avoid contact with Disinfectants, Boiling Water or Chlorine Products.

Note: Do not Use on Food Contact Areas
